Anthony Colatorti

Vice Assistant Project Manager for San Diego Construction, Inc.

SUNDT

September 11-12, 2012, Hyatt Regency, Sacramento, CA

Building Converge Efficiencies into your Prolog Project Template

Sundt Construction, Inc.

Sundt is one of the 100 largest construction companies in the country and a recognized industry leader. The company is owned entirely by its approximately 1,500 employees. The firm is headquartered in Tempe, AZ and has offices in Tucson, AZ; San Diego and Sacramento, CA; Cary, NC; Albuquerque, NM; and San Antonio and El Paso, TX. Sundt builds a variety of projects for both public and private clients throughout the United States.

THE TOP 400 LIST

61	52	Clayco Inc., St. Louis, Mo.†	900.0

Building Converge Efficiencies into your Prolog Project Template

Increased Use = Increased Admin

With the increasing use of Prolog Converge notifications to monitor data and activities within the projects at all levels, there becomes an exponential growth of administrative tasks necessary to keep all informed.

Add setup items to Project Template

- Corporate Users (and User Groups)
- Distribution Lists
- Prolog File Management Folders

Building Converge Efficiencies into your Prolog Project Template

Adding Corporate Level Users and System User Groups

- Safety Admin
- Quality and Safety Managers
- Operations Managers
- Executive Level Management
- Others

Concerns

- User Groups in Template Match User Groups in Production DB.
- Both Name and ID
- Avoid User Groups, User Groups2, User Groups3...

Recommend

- Role based rather than User Level security.

Building Converge Efficiencies into your Prolog Project Template

Coordinating Databases with Template

IF your template is in a separate database than your projects, ensuring your security groups have the same group ID and description, will avoid issue of User Group1, User Group2... etc.

- Be sure ID and Descriptions Match
- Add Placeholders if necessary

Building Converge Efficiencies into your Prolog Project Template

Adding Corporate Level Users and System User Groups

The screenshot shows the 'Security Manager' window in Prolog Manager 9.0. The window title is 'Prolog Manager 9.0 - Arizona - Prolog Manager New Project (1)'. The menu bar includes File, Edit, Exchange, Schedule, Word Processor, Print, Tools, Window, and Help. The toolbar contains various icons for file operations and project management. The main area is divided into tabs: Users, User Group, Feature Permissions, Data Group Permissions, Record Set Permissions, Project Permissions, Options, and File Link Permissions. The 'Users' tab is active, showing a 'Project List' on the left and a 'User Project Permission' table on the right.

User	User Group	Company	Access
H. Thomas Crohurst	Safety-Quality	The Sundt Companies, Inc.	<input checked="" type="checkbox"/>

Building Converge Efficiencies into your Prolog Project Template

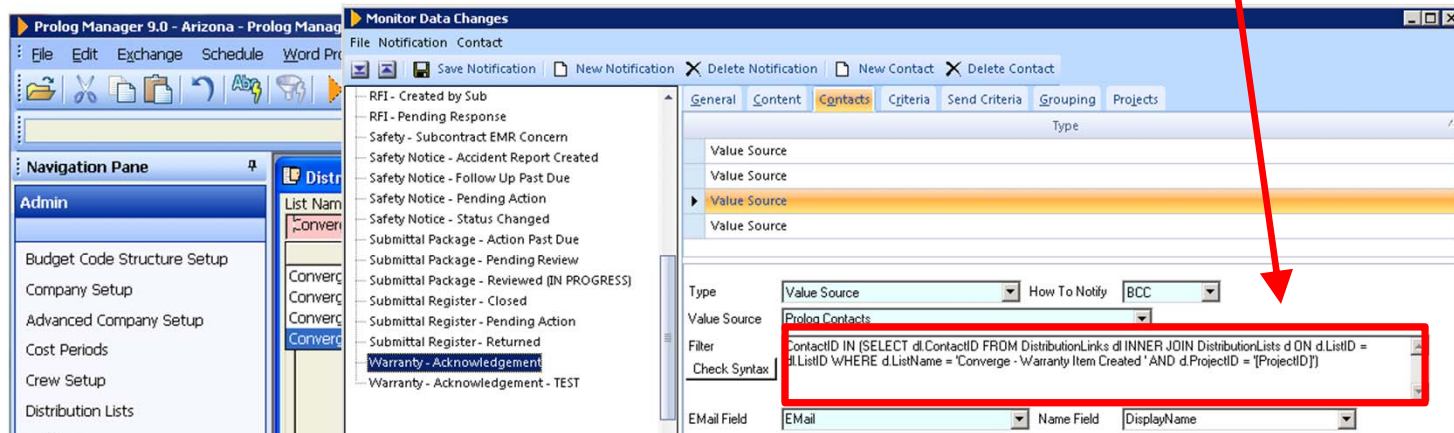

Add Distribution Lists

For specific project team members intended to be accessed by Converge notifications.

Benefits to Converge/Prolog Users/Admin

- Ensures all lists are spelled correctly for access by notifications.
- Eliminates set-up step/training for end users.
- Allows project teams to manage recipients.

Thanks Jordan!!!

Building Converge Efficiencies into your Prolog Project Template

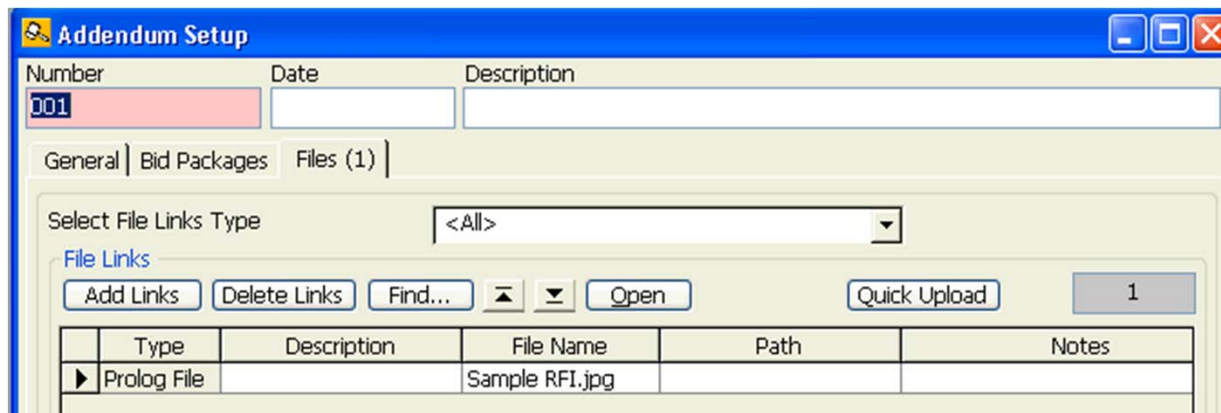

Prolog File Management Folders

Upload a file to one record in every data group in your project template.

Benefit to end users.

- Users can see and anticipate where files will be stored.
- Less likely to create their own folders which will then become a second data silo.
- Ensures organizational consistency.

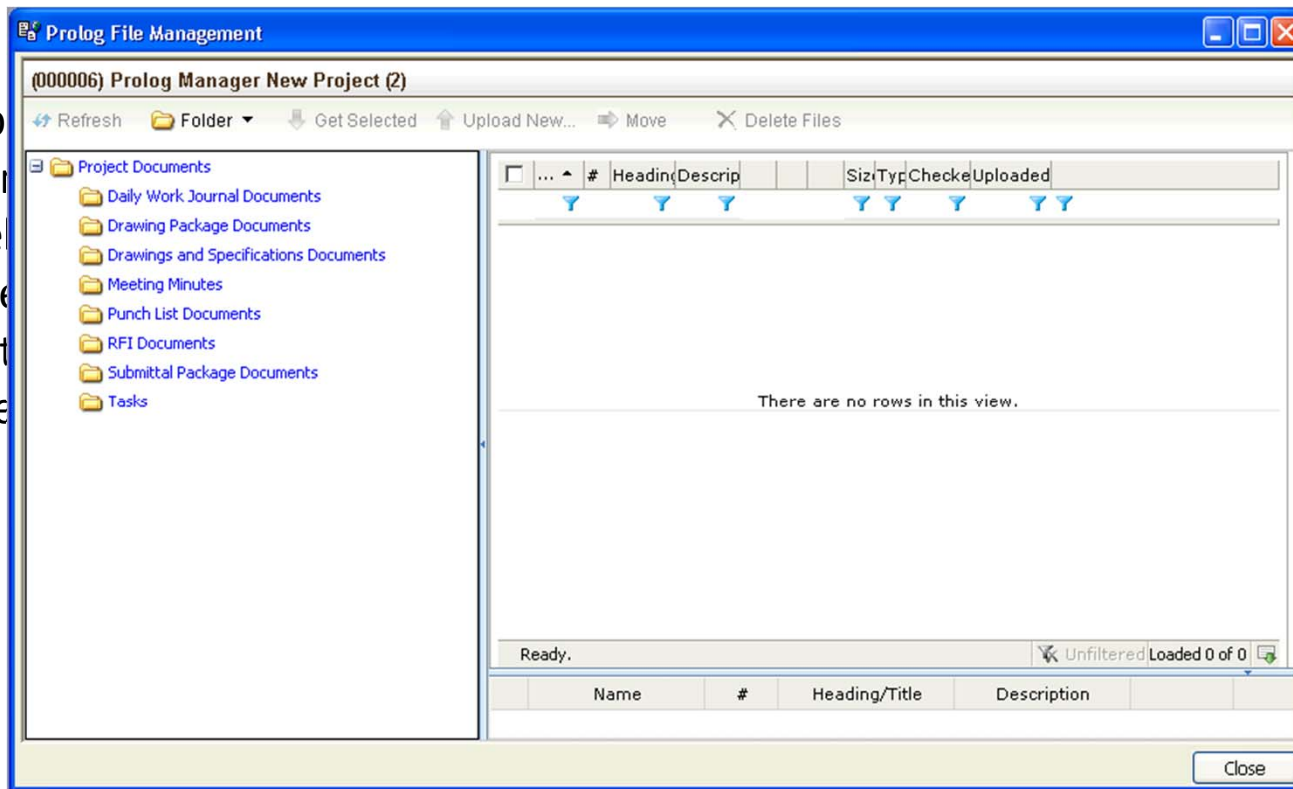

Building Converge Efficiencies into your Prolog Project Template

Prolog File Management Folders

Creating Prolog File Management Folders in Template:

- Be
- Up
- Re
- De
- Ke
- Ret
- Cre

Building Converge Efficiencies into your Prolog Project Template

Recap

Add users requiring access to many Projects.

- Eliminates Admin time in setting up user access.
- Eliminates the gaps during project setup
- Allows greater distribution of hyperlinked notifications.

Set up distribution lists for all projects.

- Eliminates setup for each project.
- Eliminates potential for spelling errors.
- Eliminates training at a potentially inconvenient time for end users.

Add all Prolog File Management Folders.

- Minimizes Rouge Folders.
- Maintain Organizational Consistency.

Data Entry Alternatives

Prolog Converge 9.5 and Microsoft Office

Prolog Converge 9.5 now includes the capability to capture data from Excel and Word. Once configured in the admin system, this is a powerful but easy to use tool. Let's take a look at the steps to configure Converge.

Data Entry Alternatives

Data Entry Alternatives

The screenshot displays the "Prolog Converge Admin Tool" interface. The main window is titled "Input Servers" and contains a table with the following data:

Name	Disabled?
EnMail Forms	

Below the table is the "Editing Input Servers" section with the following fields:

- Type: EMail
- Sub Type: POP3 ← Or IMAP4
- Name: EnMail Forms
- Run on server: DCAM-AP-MPW-1
- Monitor Seconds: 60
- Don't delete original Email
- Disabled
- Log communication ← Good for troubleshooting purposes
- Trace EMail

NOTE!

Data Entry Alternatives

On to the Spreadsheet!

Important Notes!!

- Tables and fields in the forms directly correlate with Prolog Tables and Fields
- You need the Prolog Project ID (or PEProjectID if using multiple portfolios)
- You also need knowledge of Dropdown lists, name manager and hiding fields in a spreadsheet.

Let's Mail it in!

The logo for Meridian Systems features a red triangle with a white outline and a white arrow pointing upwards. To the right of the logo is a white silhouette of a city skyline with various buildings of different heights and shapes. The text "Meridian Systems" is in blue, and "CUSTOMER SUMMIT 2012" is in a larger blue font with "2012" in red.

|
```

- Right click on the field and select **Toggle Field Codes**
- Replace **MERGEFORMAT** with **CHARFORMAT**
- Right click on the field and select **Toggle Field Codes**

Change Budget Code

Have a SCO with the wrong Budget Code?

Change Budget Code

Add Row, Select correct Budget Code

The screenshot displays a software interface for managing budget codes. On the left, a table titled 'Itemized Breakdown' has columns for 'Item', 'Description', and 'Budget Code'. It contains two rows: one for item 0001 with description 'Applegate - FO # 001 - 4th' and budget code '08.1508N', and a new row for item 0002. On the right, a list of budget codes is shown with columns for 'Budget Code', 'n/a', 'Division', and 'Bid Pack'. The row for '08.1603N' is highlighted in blue, indicating it is the selected budget code for the new item.

Item	Description	Budget Code
0001	Applegate - FO # 001 - 4th	08.1508N
0002		

Budget Code	n/a	Division	Bid Pack

File Management System

Standard- HTML user –interface

The screenshot displays a web-based file management system interface. On the left is a tree view of folders including 'Project I', 'Cha', 'Clos', 'Con', 'Desi', 'Dra', 'Eve', 'Hotl', 'Insp', 'Issu', 'Mee', 'Noti', 'Owr', 'PCD', 'Pro', 'Pun', 'RFI Documents', 'Safety Notice Documents', 'Schedules', 'Submittal Drawings', 'Submittal Package Documents', 'Submittal Register Documents', 'Submittal Transmittal Documents', and 'Transmittal Documents'. The main area shows a file list table with columns: Name, #, Heading/Title, Description, Size (MB), Type, Checked Out By, and Uploaded / Modified. A 'Folder Properties' dialog box is open over the file list. A red oval highlights the table headers in the main interface.

Name	#	Heading/Title	Description	Size (MB)	Type	Checked Out By	Uploaded / Modified
<input checked="" type="checkbox"/>		CCD 001 - Drawing and Specifi	Downl View Proper	0.62	PDF		5/9/2012 1:44:
<input type="checkbox"/>		UMEQ CCD No 001.pdf	Downl View Proper	236.8	PDF		7/24/2012 2:2:
<input type="checkbox"/>		UMEQ Specifications CCD No 00	Downl View Proper	1.03	PDF		7/24/2012 2:2:
